

BOUQUET CIRCUIT PLAN

Planned Work:

- Replace 25.8 miles of existing overhead wire with new insulated wire
- Add temporary generator to serve approx. 250 customers during a PSPS event with minimal outages

Expected Completion Date:

- September 2021

Expected Improvements*:

- While this circuit did not experience a PSPS event in 2020, this planned work is expected to reduce the impact of PSPS in the future

*The Bouquet circuit had PSPS-related outages in 2019 and 2021, but not in 2020.
