

Tuba Circuit Plan

Planned Work:

- Temporary Generator: Add temporary generator to serve approx. 306 customers during a PSPS event with minimal outages
- Other: Adjustments to switching plans and weather station assignments in order to leverage better situational awareness and reduce PSPS use

Expected Improvements:

- While this circuit did not experience a PSPS event in 2020*, the planned work is expected to reduce the impact of PSPS in the future

*The Tuba circuit had PSPS-related outages in 2019 and 2021, but not in 2020.
