PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA
WATER DIVISION

SUBJECT: Adjustment of Existing Income Limitations for
California Alternate Rates for Energy

In compliance with the California Public Utilities Commission (Commission) Energy Division's notice dated March 1, 2018 (Notice), and pursuant to Resolution E-3524, and Decision (D.)04-02-057 and D.12-08-044, Southern California Edison Company (SCE) hereby submits for filing the following revised tariff sheets which are listed on Attachment A and are attached hereto.

PURPOSE

This advice filing revises Schedule W-1-R-CARE, *Santa Catalina Island California Alternate Rates for Energy (CARE) Domestic Water Service*, to reflect that the household annual income limitations applicable to the CARE program for 2018-2019 will increase in compliance with the Energy Division's Notice. The Energy Division's Notice requests utilities to file revised tariffs reflecting the revised income guidelines effective on June 1, 2018.

BACKGROUND

The Commission authorized the Low Income Ratepayer Assistance (LIRA) program by D.89-07-062 which became effective September 1989. SCE's electric Schedule D-LI, Low Income Rate – Domestic Service, became effective pursuant to D.89-09-044 on November 1, 1989. The program name was changed from LIRA to CARE effective January 1, 1995, in accordance with Senate Bill 491. Accordingly, SCE's electric rate schedule was renamed to Schedule D-CARE.

In compliance with Resolution W-4665, SCE established Schedule W-1-CARE which provides Santa Catalina Island (Catalina) low-income domestic water customers with CARE discounts.¹ Catalina customers who qualify for the CARE program for electric

¹ Advice 63-W established Schedule W-1-CARE. Advice 94-W renamed the schedule as W-1-R-CARE in compliance with D.14-10-048.

and/or gas service are enrolled automatically in the CARE program for water service. Furthermore, CARE application will be required for participation and recertification in the CARE program unless the customer has completed an approved CARE application for electric and gas service and is currently receiving service under electric Schedule D-CARE or gas Schedule G-1-CARE. In accordance with Ordering Paragraph 12 of Resolution W-4665, low-income customers on Catalina receive a 20 percent discount from water service rates under Schedule W-1-CARE.

Household income limitations are used to determine whether a person or household qualifies for discounts provided under CARE schedules. In addition, pursuant to D.12-08-044's Categorical Eligibility and Enrollment Program, in lieu of providing income documentation, CARE customers who have been income verified by a qualifying categorical eligible low income program may submit proof of enrollment in an approved categorical eligibility program and qualify for CARE.

The Commission, in Resolution E-3524, directed the Energy Division to communicate new eligibility income levels to the utilities on May 1 of each year. The Commission further required the Energy Division to direct the utilities to file revised tariffs, effective June 1 of each year, reflecting the new income levels. However, D.12-08-044 moved the annual income letter release from May 1 to April 1 each year, to continue to allow continued ease of access for enrolling into the CARE program. In addition, D.12-08-044, Ordering Paragraph 88 (b) (ii) directs the Energy Division to include an approved updated list of categorical programs along with this updated annual income letter.

The Energy Division's Notice updates the 2018-2019 income limits in compliance with Public Utilities (PU) Code Section 739.1 (a)(1).² Beginning with the 2012-2013 annual income update, the Federal Poverty Guideline values and corresponding household size were used to determine and update the annual CARE income limits. The Commission transitioned to this approach because the methodology it used previously, pursuant to Resolution E-3524, which was adopted in February 1998, did not align with the requirements of PU Code Section 739.1(b)(1).

PROPOSED TARIFF CHANGES

This advice filing updates Schedule W-1-R-CARE by incorporating the new income levels and effective date of June 1, 2018 provided by the Energy Division.

No cost information is required for this advice filing.

² The Commission shall establish a program of assistance to low-income electric and gas customers with annual household incomes that are no greater than 200 percent of the federal poverty guideline levels, the cost of which shall not be borne solely by any single class of customer. The program shall be referred to as the California Alternate Rates for Energy or CARE program. The Commission shall ensure that the level of discount for low-income electric and gas customers correctly reflects the level of need.

This advice filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other schedule or rule.

TIER DESIGNATION

Pursuant to General Order (GO) 96-B, Water Industry Rule 7.3.1(3), this advice letter is submitted with a Tier 1 designation.

EFFECTIVE DATE

In accordance with the Energy Division's Letter and Resolution E-3524, SCE requests that this advice filing will become effective on June 1, 2018.
