

Rule 1
DEFINITIONS

Sheet 5

(Continued)

Distributed Energy Resources Generation (DERG): (Continued)

A customer who has installed DERG will be subject to the same rates, rules, and requirements of those of a customer served under the same rate schedule who has not installed DERG only until June 1, 2006 when the DERG is not operated in a combined heat and power application or June 1, 2011 when the DERG is operated in a combined heat and power application.

Distribution Line Extension: New distribution facilities of SCE that is a continuation of, or branch from, the nearest available existing permanent Distribution Line (including any facility rearrangements and relocations necessary to accommodate the Distribution Line Extension) to the point of connection of the last service. SCE's Distribution Line Extension includes transmission underbuilds and converting an existing single-phase line to three-phase in order to furnish three-phase service to an Applicant, but excludes service transformers, meters and services.

Distribution Lines: Overhead and underground facilities which are operated at distribution voltages, and which are designed to supply two (2) or more services.

Distribution System: Those non-ISO transmission and distribution facilities owned, controlled, and operated by SCE that are used to provide distribution service under the tariffs.

Domestic Service: Service for residential use at a dwelling premises. Any service for other than residential use at a dwelling premises may be served through the domestic service meter only where such nondomestic connected load does not exceed 300 watts for lighting or 2 hp for power.

Domestic Farm Service: Single-phase service for light or power will be considered domestic farm service provided:

1. The service is furnished through the farm operator's domestic meter;
2. The service is used only for farming operations, in addition to domestic purposes, on the farm furnished the service;
3. Monthly billing: The total use on the domestic farm service meter does not exceed 2,500 kilowatthours per month in each of three consecutive months or a total of 20,000 kilowatthours in any twelve consecutive months;
4. Bimonthly billing: The total use through the domestic farm service meter does not exceed 10,000 kilowatthours in any two consecutive bimonthly periods or a total of 20,000 kilowatthours in any twelve consecutive months.

Domestic Heat Pump Customer: A domestic heat pump customer is one who has installed a central heat pump unit of not less than 3 hp (nameplate rating), which is used exclusively to heat and cool the domestic dwelling.

Edison: Southern California Edison (See Company, SCE or Utility)

Electric Service Provider: See Energy Service Provider.

Electric Supply: Electric energy or power.

Electric Vehicle: An electric vehicle is any vehicle propelled in whole or in part by electrical energy stored on-board for the purpose of propulsion, and where charging of the on-board electrical storage is provided, in whole or in part, through a connection to the utility distribution system. Types of electric vehicles include, but are not limited to, plug-in hybrid electric vehicles (PHEV), battery electric vehicles (BEV), electric golf carts, or neighborhood electric vehicles (NEV). Sheet 6

(Continued)

Electronic Transfer: Paperless exchange of data and/or funds, usually involving computer and telecommunication technology. (L)

Energy Service Provider (ESP): An entity that provides electric power and ancillary services (including, but not limited to, aggregators, brokers, and marketers, but excluding utilities) to an End-Use Customer. An End-Use Customer can act as its own ESP as long as it complies with all requirements of being an ESP. Also referred to as Electric Service Provider. (L)

General Service: Service to any lighting or power installation except those eligible for service on single-family and multifamily domestic, street lighting, outdoor area lighting, traffic control, resale, or standby schedules. No customer for whom a single-family or multifamily schedule is applicable may transfer to or newly take service under a general service schedule. Domestic service which is on a separate meter from a single-family or multifamily dwelling shall be served under a general service schedule.

Heating Service: Service to any apparatus employing the resistance of conductors to transform electric energy into heat.

Hourly Metering: See Meter, specifically Interval Data Recorder (IDR) Meter.

Housing Project: A building or group of buildings located on a single premises and containing residential dwelling units for which master metering of electric service at one location has been installed in accordance with tariffs in effect at the time of installation.

Independent System Operator (ISO): The California Independent System Operator Corporation, a nonprofit corporation that controls the transmission facilities of all participating transmission owners and dispatches certain generating units and loads. The ISO is responsible for the operation and control of the statewide transmission grid.

Independent Verification Agent (IVA): An agent who verifies a change in Direct Access service in accordance with Public Utilities Code Sections 366(d) and 366(e).

Industrial Developments: Consist of two or more enterprises engaged in a process which creates a product or changes materials into another form or product.

Intermittent Service: Service which, in the opinion of SCE, is subject to discontinuance for a time or at intervals.

Lighting Service: Service to any apparatus transforming electric energy into light for all visual purposes except those specified under "Power Service."

Mailed: Any notice or other communication will be considered "mailed" when sent by electronic transfer or when it is enclosed in a sealed envelope, properly addressed, and deposited in any United States Post Office box, postage prepaid.

Rule 1
DEFINITIONS

Sheet 12

(Continued)

Rules: Tariff sheets which set forth the application of all rates, charges, and service when such applicability is not set forth in and as part of the rate schedules.

SCE: Southern California Edison (See Company, Edison, or Utility).

SCE's Operating Convenience: The term refers to the utilization, under certain circumstances, or facilities or practices not ordinarily employed which contribute to the overall efficiency of SCE's operations; it does not refer to customer convenience nor to the use of facilities or adoption of practices required to comply with applicable laws, ordinances, rules or regulations, or similar requirements of public authorities.

Scheduling Coordinator (SC): An entity certified by the Federal Energy Regulatory Commission that acts as a go-between with the ISO on behalf of generators, supply aggregators (wholesale marketers), retailers, and customers to schedule the supply and consumption of electricity.

Seasonal Service: Service to establishments which are occupied seasonally or intermittently, such as seasonal resorts, cottages or other part-time establishments.

Separate SCE/ESP Billing: A situation in which SCE and an Energy Service Provider each bill a customer separately for their own services.

Service Account: For Direct Access, the Service Account is where electric power and ancillary services are delivered and recorded (metered) for billing purposes. See also the definition of "CSS".

Service Wires or Connection: The group of conductors, whether overhead or underground, necessary to connect the service entrance conductors of the customer to SCE's supply line, regardless of the location of SCE's meters or transformers. An overhead service connection, sometimes referred to as a "service drop," is the group of conductors between the customer's building or other permanent support and SCE's adjacent pole.

Service Extension: The overhead and underground primary or secondary facilities (including, but not limited to SCE-owned Service Facilities and Applicant-owned service facilities) extending from the point of connection at the Distribution Line to the Service Delivery Point. When an underground Service Extension is supplied from a SCE-designated overhead pole, the beginning point of connection to SCE's Distribution Line shall be where the Service Extension is connected to SCE's overhead Distribution Line conductors.

Single Enterprise: A separate business or other individual activity carried on by a customer. The term does not apply to associations or combinations of customers.

Single-family Dwelling or Accommodation: A house, an apartment, a flat, or any other permanent residential dwelling which contains cooking facilities (not necessarily electric) and which is used as a residence by a single family.

Small Customer/Applicant: Applicants for service and customers served under Domestic Rate Schedules and Schedules GS-1, TOU-GS-1, TOU-EV-3, PA-1, AL-2, LS-1, LS-2, LS-3, OL-1, and TC-1. (T)

Small Commercial Customer: Customers served under Schedules GS-1, TOU-GS-1, and TOU-EV-3.

Sheet 14

(Continued)

Utility Users Tax: A tax imposed by local governments on SCE's customers. SCE is required to bill customers within the city or county for the taxes due, collect the taxes from customers, and then pay the taxes to the city or county. The tax is calculated as a percentage of the charges billed by SCE for energy use. (N)
|
(N)

Violence: Types of violence are to include, but are not limited to, death or injury with a weapon, inflicting bodily harm, allowing animals to attack, physically detaining an employee against his/her will, and/or tearing employee's clothing.

Water Suppliers: Establishments primarily engaged in distributing water for sale for domestic, commercial, and industrial use.

X-Ray Service: Service to any apparatus transforming electric energy into radiations similar to light but having wave lengths from .0006 to 2 angstroms.

Zone: Zones are defined by zip code for purposes of establishing discretionary service fees under Direct Access.
