

Rule 15  
DISTRIBUTION LINE EXTENSIONS

Sheet 6

(Continued)

C. DISTRIBUTION LINE EXTENSION ALLOWANCES

1. GENERAL. SCE will complete a Distribution Line Extension without charge provided SCE's total estimated installed cost does not exceed the allowances from permanent, bona-fide loads to be served by the Distribution Line Extension within a reasonable time, as determined by SCE. The allowance will first be applied to the Service Extension in accordance with Rule 16. Any excess allowance will be applied to the Distribution Line Extension to which the Service Extension is connected.
  
2. BASIS OF ALLOWANCES. Allowances shall be granted to an Applicant for Permanent Service, or to an Applicant for a subdivision or development under the following conditions:
  - a. SCE is provided evidence that construction will proceed promptly and financing is adequate, and
  - b. Applicant has submitted evidence of building permit(s) or fully-executed home purchase contract(s) or lease agreement(s), or
  - c. Where there is equivalent evidence of occupancy or electric usage satisfactory to SCE.

The allowances in Sections C.3 and C.4 are based on a revenue-supported methodology using the following formula:

$$\text{ALLOWANCE} = \frac{\text{NET REVENUE}}{\text{COST OF SERVICE FACTOR}}$$

3. RESIDENTIAL ALLOWANCES. The allowance for Distribution Line Extensions, Service Extensions, or a combination thereof, for Permanent Residential Service is \$2,506 per meter or residential dwelling unit.<sup>i</sup> (T)
  
4. NON-RESIDENTIAL ALLOWANCES. The allowance for Distribution Line Extensions, or a combination thereof, for Permanent Non-Residential Service is determined by SCE using the formula in Section C.2.

Where the Distribution Line Extension will serve a combination of residential and non-residential meters, residential allowances will be added to non-residential allowances. (L)

<sup>i</sup> Per Decisions 11-07-029 and 13-06-014, between July 25, 2011 and June 30, 2016, all residential service facility upgrade costs in excess of the residential allowance required to accommodate Basic Plug-In Hybrid and Electric Vehicle Charging Arrangements shall be treated as common facility costs rather than being paid for by the individual plug-in hybrid and electric vehicle customer. Basic Plug-In Hybrid and Electric Vehicle Charging Arrangements are those intended, as determined by SCE, to encompass Level 1 and Level 2 charging for at least one vehicle. Level 1 and Level 2 charging refers to the Society of Automotive Engineers (SAE) standard voltage levels for alternating current (AC) charging (120 and 240 volts, respectively). This policy does not apply in the non-residential context. (N)

Rule 15  
DISTRIBUTION LINE EXTENSIONS

Sheet 7

(Continued)

- C. DISTRIBUTION LINE EXTENSION ALLOWANCES (L)
5. SEASONAL, INTERMITTENT, AND INSIGNIFICANT LOADS. When an Applicant requests service that requires a Distribution Line Extension to serve loads that are Seasonal or Intermittent, the allowance for such loads shall be determined using the formula in Section C.2. No allowance will be provided where service is used only for emergency purposes, or for Insignificant Loads. (L)
- D. CONTRIBUTIONS OR ADVANCES BY APPLICANT
1. GENERAL. Contributions or Advances by an Applicant to SCE for the installation of a Distribution Line Extension to receive SCE service consists of such things as cash payments, the value of facilities deeded to SCE, and the value of Excavation performed by Applicant.
2. PROJECT-SPECIFIC COST ESTIMATES. SCE's total estimated installed cost will be based on a project-specific estimated cost.
3. CASH ADVANCE. A cash Advance will be required only if Applicant's excess allowance is less than SCE's total estimated installed cost to complete a Distribution Line Extension.
4. TAX. All contributions and Advances by Applicant are taxable and shall include an Income Tax Component of Contribution (ITCC) at the rate provided in the SCE's Preliminary Statement. ITCC will be either refundable or non-refundable in accordance with the corresponding contribution.
5. REFUNDABLE AND NON-REFUNDABLE AMOUNTS. Applicant shall contribute or Advance, before the start of SCE's construction, the following:
- a. UNDERGROUND REFUNDABLE AMOUNT. Applicant's refundable amount is the portion of the SCE's total estimated installed cost, including ITCC, to complete the underground Distribution Line Extension (including transformers, and excluding Betterments) that exceeds the amount of Distribution Line Extension allowance determined in Section C for:
