

Schedule TOU-BIP
TIME-OF-USE-GENERAL SERVICE
BASE INTERRUPTIBLE PROGRAM

Sheet 6

(Continued)

SPECIAL CONDITIONS (Continued)

3. Firm Service Level (FSL): FSL is the Maximum Demand SCE is expected to supply and/or deliver during any Period of Interruption. The FSL shall be specified by the customer and by the Aggregator for each of its Aggregated Groups. During a Period of Interruption, the participant is expected to interrupt load to its specified FSL. Increases or decreases in FSL may be made no more often than once per year, upon written request by the participant between November 1 and December 1 and execution of an Amendment To Contract For Interruptible Service (Form 14-332) for customers, and Attachment E to the Time-of-Use Base Interruptible Program Aggregator Agreement (Form 14-780) for Aggregators. Participants served under this Schedule shall establish a FSL of zero or greater. An Essential Use Customer shall establish its FSL as described in the special conditions section of this tariff.

4. Notice of Interruption: A Notice of Interruption will be received on either the customer's dedicated telephone or Remote Terminal Unit (RTU). SCE may give a Notice of Interruption under this Schedule:
 - a. After the California Independent System Operator (CAISO) has (i) forecasted a Stage 1 Emergency and publicly issued a Warning Notice; (ii) has taken all necessary steps to prevent the further degradation of its operating reserves; and (iii) notified SCE that a Stage 1 Emergency is imminent; or
 - b. After the CAISO has declared a Stage 2 Emergency; or
 - c. Upon determination by SCE's grid control center of the need to implement load reductions in SCE's service territory.
 - d. At the discretion of SCE for program evaluation or system contingencies.

Upon receipt by a participant of a Notice of Interruption from SCE, the participant shall reduce the demand imposed on the electric system to its FSL in accordance with Special Condition 2 above. SCE will not be responsible for notifying the customers within an Aggregated Group of an interruption. The Aggregator will be solely responsible for notifying the customers within its Aggregated Group of an interruption.

5. Period of Interruption: A Period of Interruption is a time interval which commences 15 minutes after Notice of Interruption for participants on Participation Option A and 30 minutes after a Notice of Interruption for participants on Participation Option B. For Participation Option A and Participation Option B participants, a Period of Interruption ends for participants upon notification by SCE of the end of a Period of Interruption.

6. Excess Energy: Excess Energy is the number of kWh consumed in each Period of Interruption which exceeds the product of the FSL kW multiplied by the total number of hours within the Period of Interruption.

SPECIAL CONDITIONS (Continued)

- 7. Charges for Excess Energy: For each Period of Interruption during which the participant has Excess Energy, the applicable Excess Energy Charge shall be added to the customer's bill or charged to the Aggregator.
- 8. Noncompliance: The customer's noncompliance with any of the terms and/or conditions of this Schedule and/or the associated contract(s), except for the terms and conditions relating to failure to interrupt load, may result in the suspension of the interruptible credits and charges pursuant to the customer's otherwise applicable tariff. However, the customer remains subject to all other terms and conditions of this Schedule and the applicable contract(s). The interruptible credits of this rate schedule will be applied effective the next meter read date after SCE determines the customer is in compliance.
- 9. Direct Access (DA) and Community Choice Aggregation (CCA): A customer receiving DA or CCA service shall notify its Energy Service Provider (ESP) or Community Choice Aggregator (CCA), as applicable and Scheduling Coordinator that it is subject to interruption under this Schedule. In addition, if a customer receiving DA or CCA service owns its own meter or has a meter provided by an ESP, the meter must be capable of providing the proper pulse data interface between the customer's metering system and SCE's data recorder. Where SCE is the MDMA and MSP for participating service accounts which do not have the required IDR metering, SCE will provide and install such equipment.
- 10. Ownership and Control of Facilities: Communication, metering, and interrupting facilities, as specified by SCE, will be installed, owned, and maintained by SCE. These facilities will be solely under operational control of SCE unless otherwise specified by SCE. The Remote Terminal Unit (RTU) will provide a Notice of Interruption, as well as remote monitoring of the customer's load. For Aggregators, the RTU will be installed at SCE's expense, subject to availability, at a site, located within SCE's service territory, designated by the Aggregator. Interval data recorder (IDR) metering is required for all customers providing interruptible load for purposes of this Schedule, whether the load is provided directly by the customer or through an Aggregator.
- 11. Contracts: A contract is required for service under this Schedule. Prior to commencement of service under this Schedule, customers must provide a private, unlisted telephone line dedicated solely for notification of a Period of Interruption. Customers are responsible for any telephone company charges for necessary telephone service. To be served under this Schedule, eligible Participants shall comply with all provisions of the contract within 30 days of contract execution.

(T)

Customers shall have a one month window each year between November 1 and December 1, to provide written notice to SCE for the following options, a through c, to:

- a. Terminate service under Schedule TOU-BIP and return to the otherwise applicable tariff (OAT). Requests to terminate service under this Schedule and to return to the OAT will be effective on the next regularly scheduled meter read date after November 1.
- b. Change the Participation Option. Changes in Participation Option will be effective on the next regularly scheduled meter read date after receipt of the signed Amendment to Contract for Interruptible Service (Form 14-332).
- c. Increase or decrease the FSL. Increases or decreases in the FSL will be effective on the next regularly scheduled meter read date after receipt of the signed Amendment to Contract for Interruptible Service (Form 14-332).

SPECIAL CONDITIONS (Continued)

18. Aggregated Groups: Aggregators may group their customers into one or more Aggregated Groups as they require. All customers in an Aggregated Group must be served under the same voltage level, and the same Participation Option A or B, and the Aggregated Group must meet the minimum load requirements of this Schedule. In addition, an Aggregated Group will be comprised wholly of either Bundled, DA, or CCA customers. Once established, the addition or removal of customers from an Aggregated Group is not permitted until the annual window from November 1 to December 1. An exception applies to allow removal of a customer's service account when electric service with SCE is discontinued for that service account. In an Aggregated Group, if a customer's service account's voltage level changes to a level different from that of the other customers in the Aggregated Group, then such customer service account must be removed from the Aggregated Group during the annual window, but will remain in the Aggregated Group until such time. Each Aggregated Group must maintain the minimum requirements as outlined within this Schedule.

19. For the purposes of participations under Schedule TOU-BIP, time periods are defined as follows:

- On-Peak: Noon to 6:00 p.m. summer weekdays except holidays
- Mid-Peak: 8:00 a.m. to Noon and 6:00 p.m. to 11:00 p.m. summer weekdays except holidays
- 8:00 a.m. to 9:00 p.m. winter weekdays except holidays
- Off-Peak: All other hours.

Holidays are New Year's Day (January 1), Presidents' Day (third Monday in February), Memorial Day (last Monday in May), Independence Day (July 4), Labor Day (first Monday in September), Veterans Day (November 11), Thanksgiving Day (fourth Thursday in November), and Christmas (December 25).

When any holiday listed above falls on Sunday, the following Monday will be recognized as an Off-peak period. No change will be made for holidays falling on Saturday. The summer season shall commence at 12:00 a.m. on June 1 and continue until 12:00 a.m. on October 1 of each year. The winter season shall commence at 12:00 a.m. on October 1 and continue until 12:00 a.m. on June 1 of the following year.

20. Event for Program Evaluation: At SCE's discretion, customers may be requested to participate in a program evaluation event demonstrating their ability to reduce load to their contracted FSL. A BIP program evaluation event will be counted as an actual curtailment event and excess energy charges will apply. (T)
