

Schedule D-APS-E  
DOMESTIC AUTOMATIC POWERSHIFT-ENHANCED

Sheet 1

APPLICABILITY

The Domestic Automatic Powershift – Enhanced (D-APS-E) is available under SCE's Summer Discount Program (SDP) and is applicable to domestic service customers in an individually metered single-family accommodation with central air conditioning where a portion of the customer's electrical load is subject, on a selective basis at SCE's option, to disconnection from SCE's service by SCE through automatic control devices. Service pursuant to this Schedule shall be subject to adequate signal strength, availability of control devices, and acceptable operating condition of the air conditioner unit. This Schedule is not applicable to customers receiving a Medical Baseline Allocation for air conditioning, receiving service under Schedules D-APS, DM, DMS-1, DMS-2, DMS-3, DS, or Schedule PCT.

As of December 1, 2011, this Schedule is closed to new customers. On their next regularly scheduled meter read date on or after December 1, 2011, all customers participating on Strategy A of this Schedule will be transferred to the Standard Option, 100% Cycling Strategy of Schedule D-SDP, and all customers participating on Strategies B and C of this Schedule will be transferred to Standard Option, 50% Cycling Strategy of Schedule D-SDP. Once all customers have been transferred to Schedule D-SDP, this Schedule will be withdrawn.

TERRITORY

Within the entire territory served.

RATES

The rates, as applicable under the customer's Otherwise Applicable Tariff (OAT), shall apply, except the customer's bill shall be reduced by the following applicable credit:

Strategy A  
\$(0.360) per Summer Season day per connected ton of central air conditioning for 100% cycling

Strategy B  
\$(0.200) per Summer Season day per connected ton of central air conditioning for 67% cycling. This strategy is closed to new customers.

Strategy C  
\$(0.100) per Summer Season day per connected ton of central air conditioning for 50% cycling

In no event shall the amount of credit exceed the amount of the Distribution portion of the Energy Charge plus the total charge for generation of the customer's bill as calculated under the customer's OAT. Also, the Basic Charge as shown on the customer's OAT shall apply.

MINIMUM CHARGE: The Minimum Charge provision of the customer's OAT shall apply.

SPECIAL CONDITIONS

1. Air Conditioning Cycling Events: Cycling will be accomplished utilizing the control device during cycling events as defined in Special Condition 5 to cycle off the air conditioning compressor for up to 15 minutes out of every 30 minutes for 50% cycling, 20 minutes out of every 30 minutes for 67% cycling, or 30 minutes out of every 30 minutes for 100% cycling.

A credit, in accordance with the rates, above will commence on the latter of the next meter read date or the first Summer Season billing month following completion of the installation of the control device and shall continue each month of the Summer Season thereafter whether or not any cycling has been performed during that month.

2. Summer Season: The Summer Season shall commence at 12:00 a.m. on June 1 and continue until 12:00 a.m. on October 1 of each year.

3. Control Device: SCE, at its own expense, will furnish, own, operate, and maintain the control device installed by SCE or SCE designated contractor at each customer's premises.

4. Term of Service: Service under this Schedule shall be for a minimum of one year from the date on which service under this Schedule begins. The minimum of one year restriction does not apply when a customer's household develops a serious medical condition that is substantiated by a medical provider subsequent to program enrollment that, in SCE reasonable discretion, would have disqualified the customer from enrolling in this program in the first place.

5. Cycling Event: A cycling event is one in which an air conditioning compressor may be cycled off:

- a. After the California Independent System Operator (CAISO) has (i) forecasted a Stage 1 Emergency and publicly issued a Warning Notice; (ii) has taken all necessary steps to prevent the further degradation of its operating reserves; and (iii) notified SCE that a Stage 1 Emergency is imminent; or
- b. After the CAISO has declared a Stage 2 Emergency; or
- c. Upon determination by SCE's grid control center of the need to implement load reductions in SCE's service territory;
- d. For testing of the control device. SCE may conduct up to two tests per service account, per cycling season for a maximum of 30 minutes each. During the test, SCE will cycle off the customer's air conditioning compressor.

SPECIAL CONDITIONS (Continued)

5. Cycling Events: (Continued)

The number of cycling events under Subsections a., b., and c. are unlimited during the period from June 1 to October 1, of each year. Multiple cycling events per day are possible, and cycling events are limited to a cumulative total of no more than 6 hours per day. In the event of a system emergency SCE may, at its discretion, extend the cycling event beyond the 6 hour duration limit.

6. Air Conditioning Cycling Percentage Change: At customer's request, SCE shall change the cycling percentage as follows:

a. Change to a lower cycling percentage: The customer may change one time to a lower cycling percentage within the first 12 months of service under this Schedule, except that a 100% cycling customer cannot switch to 67% cycling.

b. Change to a higher cycling percentage: A customer may change to a higher cycling percentage at any time, except that a 50% cycling customer cannot switch to 67% cycling.

c. Once a customer served under 67% cycling switches to another cycling percentage (e.g., 50%, or 100%), such customer cannot return to 67% cycling. Additionally, 50%, or 100% cycling customers cannot change to 67% cycling.

7. Direct Access (DA) and Community Choice Aggregation Service (CCA Service): A customer receiving DA or CCA Service shall notify its Energy Service Provider (ESP) or Community Choice Aggregator (CCA), as applicable, and Scheduling Coordinator that its air-conditioning load is subject to cycling events under this Schedule.

- 8. Relationship to Other Demand Response Programs: Customers' service accounts on this Schedule may additionally participate on Schedule CPP. For customers' service accounts dual participating with this Schedule, the sum of credits provided by the D-APS-E and CPP programs will be capped. The capped credit amount, also known as the Maximum Available Credit, is listed per the customer's OAT in the applicable RATES section of Schedule CPP.
