

Rule 1
DEFINITIONS

Sheet 1

For the purpose of these tariff schedules, the terms and expressions listed below shall have the meanings set forth opposite them:

Aggregator: Any marketer, broker, public agency, city, county, or special district, that combines the loads of multiple End-Use Customers in facilitating the sale and purchase of electric energy, transmission and other services on behalf of these customers.

Agricultural Power Service: Agricultural Power Service is the electric energy and service used by a customer on the same Premises where the customer produces agricultural or horticultural products, including poultry and livestock. Notwithstanding the foregoing, Agricultural Power Service also applies to electric usage for: (1) packing houses that pack only whole fruits or whole vegetables, and associated cold storage on the same Premises as the packing houses; (2) cotton gins; and (3) nut hulling and shelling operations. (T)
|
(T)(C)
|
|
(C)

Applicant: A person or agency requesting SCE to supply or deliver electric service. Types of Applicants include, but are not limited to, the following:

- a) **Direct Access Applicant:** An Energy Service Provider applying for Direct Access on behalf of an End-Use Customer.
- b) **Bundled Service Applicant:** An Applicant applying for bundled services from SCE including all its power requirements purchased by SCE.
- c) **Interconnection Applicant:** An Applicant applying for interconnection under the provisions of SCE's Rule 21.
- d) **Community Choice Aggregation Applicant:** An Applicant applying for electric power from a Community Choice Aggregator (CCA) under the provisions of SCE's Rule 23.

Application: A written or electronic request to SCE for electric service as distinguished from an inquiry as to the availability or charges for such service. An Application can also be a Commission approved document submitted to SCE for the electrical interconnection of a Generator with SCE.

Billing Demand: The load or demand used for computing charges under rate schedules based on the size of the customer's load or demand. It may be the connected load, the measured maximum demand, or a modification of either as provided for by applicable rate schedule.

Billing Period: The time interval between two consecutive meter readings that are taken for billing purposes.

Broker: Any entity that arranges the sale and purchase of electric energy, transmission, and other services between buyers and sellers, but does not take title to any of the power sold.

Bundled Service: Electric power, transmission, distribution, billing, metering and related services provided by SCE.

DEFINITIONS

Sheet 5

(Continued)

Distributed Energy Resources Generation (DERG): (Continued)

A customer who has installed DERG will be subject to the same rates, rules, and requirements of those of a customer served under the same rate schedule who has not installed DERG only until June 1, 2006 when the DERG is not operated in a combined heat and power application or June 1, 2011 when the DERG is operated in a combined heat and power application.

Distribution Line Extension: New distribution facilities of SCE that is a continuation of, or branch from, the nearest available existing permanent Distribution Line (including any facility rearrangements and relocations necessary to accommodate the Distribution Line Extension) to the point of connection of the last service. SCE's Distribution Line Extension includes transmission underbuilds and converting an existing single-phase line to three-phase in order to furnish three-phase service to an Applicant, but excludes service transformers, meters and services.

Distribution Lines: Overhead and underground facilities which are operated at distribution voltages, and which are designed to supply two (2) or more services.

Distribution System: Those non-CAISO transmission and distribution facilities owned, controlled, and operated by SCE that are used to provide distribution service under the tariffs.

Domestic Service: Service for residential use at a Single-Family Dwelling premises. Any service for other than residential use at a Single-Family Dwelling premises may be served through the domestic service meter only where such nondomestic connected load does not exceed 300 watts for lighting or 2 hp for power. (T)
(T)

Domestic Farm Service: Single-phase service for light or power will be considered domestic farm service provided:

1. The service is furnished through the farm operator's domestic meter;
2. The service is used only for farming operations, in addition to domestic purposes, on the farm furnished the service;
3. Monthly billing: The total use on the domestic farm service meter does not exceed 2,500 kilowatthours per month in each of three consecutive months or a total of 20,000 kilowatthours in any twelve consecutive months;
4. Bimonthly billing: The total use through the domestic farm service meter does not exceed 10,000 kilowatthours in any two consecutive bimonthly periods or a total of 20,000 kilowatthours in any twelve consecutive months.

Domestic Heat Pump Customer: A domestic heat pump customer is one who has installed a central heat pump unit of not less than 3 hp (nameplate rating), which is used exclusively to heat and cool the domestic Single-Family Dwelling. (T)

Edison: Southern California Edison (See Company, SCE or Utility)

Electric Service Provider: See Energy Service Provider.

Electric Supply: Electric energy or power.

Electric Vehicle: An electric vehicle is any vehicle propelled in whole or in part by electrical energy stored on-board for the purpose of propulsion, and where charging of the on-board electrical storage is provided, in whole or in part, through a connection to the utility distribution system. Types of electric vehicles include, but are not limited to, plug-in hybrid electric vehicles (PHEV), battery electric vehicles (BEV), electric golf carts, or neighborhood electric vehicles (NEV).

Electronic Record: A record created, generated, sent, communicated received, or stored by electronic means.

Rule 1
DEFINITIONS

Sheet 6

(Continued)

Electronic Signature: An electronic sound, symbol, or process attached to or logically associated with an electronic record and executed or adopted by a person with the intent to sign the electronic record.

Electronic Transfer: Paperless exchange of data and/or funds, usually involving computer and telecommunication technology.

Energy Service Provider (ESP): An entity that provides electric power and ancillary services (including, but not limited to, aggregators, brokers, and marketers, but excluding utilities) to an End-Use Customer. An End-Use Customer can act as its own ESP as long as it complies with all requirements of being an ESP. Also referred to as Electric Service Provider.

General Service: Service to any lighting or power installation except those eligible for service on single-family and multifamily domestic, street lighting, outdoor area lighting, traffic control, resale, or standby schedules. No customer for whom a single-family or multifamily schedule is applicable may transfer to or newly take service under a general service schedule. Domestic service which is on a separate meter from a Single-Family or Multifamily Accommodation shall be served under a general service schedule. (T)

Heating Service: Service to any apparatus employing the resistance of conductors to transform electric energy into heat.

Hourly Metering: See Meter, specifically Interval Data Recorder (IDR) Meter.

Housing Project: A building or group of buildings located on a single premises and containing residential dwelling units for which master metering of electric service at one location has been installed in accordance with tariffs in effect at the time of installation.

Independent Verification Agent (IVA): An agent who verifies a change in Direct Access service in accordance with Public Utilities Code Sections 366(d) and 366(e).

Industrial Developments: Consist of two or more enterprises engaged in a process which creates a product or changes materials into another form or product.

Intermittent Service: Service which, in the opinion of SCE, is subject to discontinuance for a time or at intervals.

Lighting Service: Service to any apparatus transforming electric energy into light for all visual purposes except those specified under "Power Service."

Mailed: Any notice or other communication will be considered "mailed" when sent by electronic transfer or when it is enclosed in a sealed envelope, properly addressed, and deposited in any United States Post Office box, postage prepaid.

Rule 1
DEFINITIONS

Sheet 7

(Continued)

Marketer: Any entity that buys electric energy, transmission and other services and resells those services at wholesale or to an End-Use Customer.

Maximum Demand: The average kilowatts during the specified time interval when the customer's use is greatest in the billing period as indicated or recorded by the meter.

Meter: The instrument used for measuring the electricity delivered to the customer.

Interval Data Recorder (IDR) Meter: A metering device capable of recording minimum data required. Minimum data requirements include (a) hourly usage required for the Direct Access settlement process; and (b) data required to bill SCE's distribution tariffs including 15-minute demand data. Also referred to as Hourly Metering.

Edison SmartConnect™ Meter: A SCE-owned advanced (IDR) meter having two-way wireless remote communication and interface capability enabling customers to proactively manage their energy use.

Meter Data Management Agent (MDMA): the entity that takes raw meter outputs, validates them using validation, editing and estimating rules, adds corollary information needed to characterize the customer, and makes complete customer information available to others for use in various applications.

Metering Facilities: The necessary meter, instrument transformers, test facilities, data communication equipment, and other associated metering equipment.

Meter Service Provider (MSP): the entity that installs, validates, registers, and maintains the physical meter required on a premise to measure the required variables.

Meter Systems: the meter, the meter reading system/ and the meter data management server.

Midnight Service: Midnight or equivalent service time reference as provided on Schedule Nos. LS-1, LS-2, and OL-1, shall be standard clock time on the first of January of each year and shall not change throughout the year.

Mobilehome: A mobilehome is a structure designed for human habitation and for being moved on a street or highway under permit pursuant to the California Vehicle Code. Mobilehome also includes a manufactured home as defined in the California Health and Safety Code, but does not include a recreational vehicle as defined herein or a commercial coach as defined in the California Health and Safety Code.

Mobilehome Park: A mobilehome park is an area of land where two or more mobilehome sites are rented, or held out for rent, to accommodate mobilehomes used for human habitation. A mobilehome park is not a recreational vehicle park.

Multifamily Accommodation: An apartment building, duplex, mobilehome, mobilehome park, Qualifying Recreational Vehicle Unit, Qualifying Recreational Vehicle Park, Owner Lot Recreational Vehicle Park, or any other group of permanent residential Single-Family Dwellings located upon a single premises, providing the residential dwellings therein meet the requirements for a Single-Family Dwelling. A Multifamily Accommodation does not include hotels, motels, residential hotels, guest or resort ranches, marinas, tourist camps, recreational vehicle parks, campgrounds, halfway houses, rooming houses, boarding houses, institutions, dormitories, rest or nursing homes, military barracks, or any enterprise that includes or rents to either transient tenants or transient accommodations.

Rule 1
DEFINITIONS

Sheet 12

(Continued)

Rules: Tariff sheets which set forth the application of all rates, charges, and service when such applicability is not set forth in and as part of the rate schedules.

SCE: Southern California Edison (See Company, Edison, or Utility).

SCE's Operating Convenience: The term refers to the utilization, under certain circumstances, or facilities or practices not ordinarily employed which contribute to the overall efficiency of SCE's operations; it does not refer to customer convenience nor to the use of facilities or adoption of practices required to comply with applicable laws, ordinances, rules or regulations, or similar requirements of public authorities.

Scheduling Coordinator (SC): An entity certified by the Federal Energy Regulatory Commission that acts as a go-between with the CAISO on behalf of generators, supply aggregators (wholesale marketers), retailers, and customers to schedule the supply and consumption of electricity.

Seasonal Service: Service to establishments which are occupied seasonally or intermittently, such as seasonal resorts, cottages or other part-time establishments.

Separate SCE/ESP Billing: A situation in which SCE and an Energy Service Provider each bill a customer separately for their own services.

Service Account: For Direct Access, the Service Account is where electric power and ancillary services are delivered and recorded (metered) for billing purposes. See also the definition of "CSS".

Service Wires or Connection: The group of conductors, whether overhead or underground, necessary to connect the service entrance conductors of the customer to SCE's supply line, regardless of the location of SCE's meters or transformers. An overhead service connection, sometimes referred to as a "service drop," is the group of conductors between the customer's building or other permanent support and SCE's adjacent pole.

Service Extension: The overhead and underground primary or secondary facilities (including, but not limited to SCE-owned Service Facilities and Applicant-owned service facilities) extending from the point of connection at the Distribution Line to the Service Delivery Point. When an underground Service Extension is supplied from a SCE-designated overhead pole, the beginning point of connection to SCE's Distribution Line shall be where the Service Extension is connected to SCE's overhead Distribution Line conductors.

Signature: Either an original "wet" signature or an Electronic Signature, except where statute, regulation, contract, tariff or SCE policy require that a customer or client signature must be a "wet" original signature. Agreements, unless they expressly provide otherwise, may be executed in multiple counterparts, each of which shall be deemed original, but all of which together shall constitute one and the same instrument or agreement. Unless otherwise required by statute, regulation, contract, or SCE tariff or policy, documents bearing signatures may be transmitted in person or by: (1) mail by regular or commercial carrier, (2) fax, or (3) e-mail attaching a copy of the document. (T)

Single Enterprise: A separate business or other individual activity carried on by a customer. The term does not apply to associations or combinations of customers.

Single-family Dwelling or Accommodation: A house, an apartment, a flat, or any other permanent residential dwelling which contains cooking facilities (not necessarily electric) and which is used as a residence by a single family.

Rule 1
DEFINITIONS

Sheet 13

(Continued)

Small Business Customer: For purposes of assessing deposits and effectuating certain rebills in accordance with Decision 10-10-032 and Decision 10-11-037, in Rule 1, Rule 7.A, Rule 11.B, and Rule 17.C and D, a Small Business Customer is a non-residential customer with either a demand of 20 kW or less during the previous calendar year, or an annual usage of 40,000 kWh or less during the previous calendar year. For customers with more than one service account, SCE will aggregate monthly usage data over that calendar year, and will aggregate the maximum peak annual demand for each service account. This definition of Small Business Customer excludes customers on rate schedules for fixed usage and unmetered service (Schedules LS-1, LS-2, OL-1, TC-1, Wi-Fi-1, and WTR). Per Decision 10-10-032 and Decision 10-11-037, to be treated as a "Small Business Customer" under this definition, non-residential customers who do not meet the above-described electric demand or usage criteria, or for whom SCE lacks 12 months of data from the previous calendar year, may self-certify as a "Micro-Business" under California Government Code 14837 by submitting SCE Form 14-904, Southern California Edison Company Micro-Business Self-Certification Affidavit.

Small Customer/Applicant: Applicants for service and customers served under Domestic Rate Schedules and Schedules GS-1, TOU-GS-1, TOU-GS-1-RTP, TOU-EV-3, PA-1, AL-2, LS-1, LS-2, LS-3, OL-1, and TC-1. (T)

Small Commercial Customer: Customers served under Schedules GS-1, TOU-GS-1, TOU-GS-1-RTP, and TOU-EV-3. (T)

Standby Service: Service supplied to customers who normally obtain their power requirements from sources other than SCE. Under this service SCE provides a permanent service connection to supply the customer's contracted load in accordance with the provisions of the standby schedule.

Statistical Load Profile: The result of a statistical sampling technique which estimates a group of customers' hourly energy consumption calculated over a given period of time and allows such customers with load variances to be represented by a single measurement. Load profiles will be used to determine hourly energy consumption for customers who engage in Direct Access Transactions and who are eligible for using Statistical Load Profiles consistent with Commission decisions.

Street Lighting Service: Service to any lighting apparatus used primarily for the illumination of streets, alleys, highways, or other public ways.

Summary Bill: A Customer Account Statement that includes charges for multiple service accounts. Any customer with a minimum of two service accounts can participate in summary billing.

Tariff Schedules: The entire body of effective rates, rentals, charges, and rules collectively of SCE, as set forth herein, and including title page, preliminary statement, service area maps, rate schedules, list of contracts and deviations, rules, and sample forms.

Tariff Sheet: An individual sheet of the tariff schedules.

Temporary Service: Service for enterprises or activities which are temporary in character or where it is known in advance that service will be of limited duration. Service, which in the opinion of SCE, is for operations of a speculative character or the permanency of which has not been established, also is considered temporary service.

Tract or Subdivision: An area for family dwellings which may be identified by filed subdivision plans or as an area in which a group of dwellings may be constructed about the same time, either by a large scale builder or by several builders working on a coordinated basis.

Traffic Signal Systems: A system or device utilized 24 hours a day that provides for the safe flow of traffic and is utilized in the interest of public safety. (N)
(N)

Utility: Southern California Edison (See Company, Edison, or SCE).

Utility Distribution Company (UDC): Also known as "Edison", "SCE", or "Utility". An entity that owns a distribution system and provides regulated services for the distribution of electric power to customers.

Utility Users Tax: A tax imposed by local governments on SCE's customers. SCE is required to bill customers within the city or county for the taxes due, collect the taxes from customers, and then pay the taxes to the city or county. The tax is calculated as a percentage of the charges billed by SCE for energy use.

Violence: Types of violence are to include, but are not limited to, death or injury with a weapon, inflicting bodily harm, allowing animals to attack, physically detaining an employee against his/her will, and/or tearing employee's clothing.

Water Suppliers: Establishments primarily engaged in distributing water for sale for domestic, commercial, and industrial use.

Written Transaction: An action or set of actions occurring between two or more Persons relating to the conduct of business, including the formation of contracts and agreements that are conducted or performed in writing. Unless prohibited by statute, regulation, contract, tariff or SCE policy, written transactions include those conducted or performed, in whole or in part, by electronic means or records, in which the acts or records of one or both parties are not reviewed by an individual in the ordinary course in forming a contract, performing under an existing contract, or fulfilling an obligation required by the transaction.

X-Ray Service: Service to any apparatus transforming electric energy into radiations similar to light but having wave lengths from .0006 to 2 angstroms.

Zone: Zones are defined by zip code for purposes of establishing discretionary service fees under Direct Access.
