

Interconnection Study Document History

No.	Date	Document Title	Description of Document
2	01/19/2015	First Addendum to Queue Cluster 7 Phase I Appendix A – WDT1185A & WDT1185B	Addendum to: include cost for programming work associated with installing the required [REDACTED] [REDACTED] improve the description in Attachment 2 line item for the Watt Transducer, rectify the sum total and ITCC calculation associated with the Project Specific Facilities dollar in Attachment 9, and update the
1	12/17/2014	Queue Cluster 7 Phase I Appendix A – WDT1204	Final Queue Cluster 7 Phase I Appendix A

██████████ the Interconnection Customer (IC), received a Cluster 7 Phase I study report dated December 17, 2014 for its Interconnection Request (IR) to Southern California Edison Company's (SCE) for their proposed ██████████ (Project) interconnecting to the ██████████ out of the ██████████ Substation, queue position WDT1185.

1. Subsequent to the release of the QC7 Phase I report package for the Project dated December 17, 2014 was determined that: The cost associated with programming the ██████████ to add ██████████ required by the Project was inadvertently omitted from the Escalated Cost and Time to Construct for Interconnection Facilities, Reliability Network Upgrades, Delivery Network Upgrades, and Distribution Upgrades (Attachment 2 to Project Appendix A report dated December 17, 2014).
2. Improve the line item description of the ██████████ in Attachment 2
3. Rectify the sum total and its associated ITCC dollar specified in Supplement A – Subtransmission/Distribution Charging Facilities, Cost, and Schedule Costs Table (Attachment 9 Costs Table –)
4. Reflect the correct size of the Project in Supplement A – Subtransmission/Distribution Charging Facilities, Cost, and Schedule Costs Table (Attachment 9 Costs Table) and Distribution Charging Facilities, Cost, and Schedule Costs Table (Attachment 10 Costs Table)

Consequently, the document(s) below from the QC7 Phase I report package dated December 17, 2014 has been updated accordingly, and is attached as part of this QC7 Phase I Addendum report package. The corresponding changes replace and supersede those same sections in the Project's QC7 Phase I Appendix A report for WDT1185A & WDT1185B.

1. Escalated Cost and Time to Construct for Interconnection Facilities, Reliability Network Upgrades, Delivery Network Upgrades, and Distribution Upgrades (Attachment 2 to Project Appendix A report dated December 17, 2014).
2. Supplement A – Subtransmission/Distribution Charging Facilities, Cost, and Schedule Costs Table (Attachment 9 Costs Table)
3. Distribution Charging Facilities, Cost, and Schedule Costs Table (Attachment 10 Costs Table)

Summary of changes:

Replace the following in the QC7 Phase I report package:

- a. Escalated Cost and Time to Construct for Interconnection Facilities, Reliability Network Upgrades, Delivery Network Upgrades, and Distribution Upgrades (Attachment 2 to Project Appendix A report dated December 17, 2014).
- b. Supplement A – Subtransmission/Distribution Charging Facilities, Cost, and Schedule Costs Table (Attachment 9 Costs Table)
- c. Distribution Charging Facilities, Cost, and Schedule Costs Table (Attachment 10 Costs Table)

The remainder of the WDT1185A & WDT1185B Appendix A report dated December 17, 2014 is unchanged.
