## **QUEUE CLUSTER 7 PHASE I REPORT**

**January 20, 2015**

This study has been completed in coordination with the California Independent System Operator Corporation (CAISO) per CAISO Tariff Appendix DD Generator Interconnection and Deliverability Allocation Procedures (GIDAP)

Interconnection Study Document History

No.	Date	Document Title	Description of Document
2	01/20/2015	First Addendum to Queue Cluster 7 Phase I Appendix A – WDT1201A&WDT1201B	Addendum to include remove special control system costs from Attachment 2 and fix the construction timeframe of IF in Attachment 2.
1	12/17/2014	Queue Cluster 7 Phase I Appendix A – WDT1201A&WDT1201B	Final Queue Cluster 7 Phase I Appendix A

[REDACTED] the Interconnection Customer (IC), received a Cluster 7 Phase I study report dated December 17, 2014 for its Interconnection Request (IR) to Southern California Edison Company's (SCE) for their proposed [REDACTED] (Project) interconnecting to the to the [REDACTED] Substation, queue position WDT1201 (WDT1201A&WDT1201B).

Subsequent to the release of the QC7 Phase I report package for the Project dated December 17, 2014 it was determined that:

1. The cost associated with the special control system were inadvertently included in the Escalated Cost and Time to Construct for Interconnection Facilities, Reliability Network Upgrades, Delivery Network Upgrades, and Distribution Upgrades (Attachment 2 to Project Appendix A report dated December 17, 2014). Such costs are already included in the Attachment 9 Costs table included in the original QC7 Phase I report package of the Project.
2. The construction duration of the Project's interconnection Facilities specified in the Escalated Cost and Time to Construct for Interconnection Facilities, Reliability Network Upgrades, Delivery Network Upgrades, and Distribution Upgrades (Attachment 2 to Project Appendix A report dated December 17, 2014) need to reflect a 27 month duration.

These document(s) below from the QC7 Phase I report package dated December 17, 2014 have been updated accordingly, and are attached as part of this QC7 Phase I Addendum report package. The corresponding changes replace and supersede those same sections in the Project's QC7 Phase I Appendix A report for WDT1201A&WDT1201B.

1. Escalated Cost and Time to Construct for Interconnection Facilities, Reliability Network Upgrades, Delivery Network Upgrades, and Distribution Upgrades (Attachment 2 to Project Appendix A report dated December 17, 2014)

Summary of changes:

Replace the following in the QC7 Phase I report package:

- a. Escalated Cost and Time to Construct for Interconnection Facilities, Reliability Network Upgrades, Delivery Network Upgrades, and Distribution Upgrades (Attachment 2 to Project Appendix A report dated December 17, 2014) to reflect the change(s) mentioned above.

The remainder of the WDT1201A&WDT1201B Appendix A report dated December 17, 2014 is unchanged.
