
First Addendum to Appendix A – WDT1206

QUEUE CLUSTER 7 PHASE I REPORT

January 19, 2015

This study has been completed in coordination with the California Independent System Operator Corporation (CAISO) per CAISO Tariff Appendix DD Generator Interconnection and Deliverability Allocation Procedures (GIDAP)
Interconnection Study Document History

No.	Date	Document Title	Description of Document
2	01/19/2015	First Addendum to Queue Cluster 7 Phase I Appendix A – WDT1206	Addendum to include cost for programming work associated with installing the required [REDACTED] [REDACTED]
1	12/17/2014	Queue Cluster 7 Phase I Appendix A – WDT1206	Final Queue Cluster 7 Phase I Appendix A

████████████████████ the Interconnection Customer (IC), received a Cluster 7 Phase I study report dated December 17, 2014 for its Interconnection Request (IR) to Southern California Edison Company's (SCE) for their proposed ██████████ (Project) interconnecting to the ██████████ out of ██████████ Substation, queue position WDT1206.

Subsequent to the release of the QC7 Phase I report package for the Project dated December 17, 2014 it was determined that the cost associated with programming the substation ██████████ to add monitoring points for the ██████████ required by the Project was inadvertently omitted from the original Escalated Cost and Time to Construct for Interconnection Facilities, Reliability Network Upgrades, Delivery Network Upgrades, and Distribution Upgrades (Attachment 2 to Project Appendix A report dated December 17, 2014). The following items from the QC7 Phase I report package dated December 17, 2014 have been updated accordingly, and are attached as part of this QC7 Phase I Addendum report package. The corresponding changes replace and supersede those same sections in the Project's QC7 Phase I Appendix A report for WDT1206.

1. Escalated Cost and Time to Construct for Interconnection Facilities, Reliability Network Upgrades, Delivery Network Upgrades, and Distribution Upgrades (Attachment 2 to Project Appendix A report dated December 17, 2014)

Summary of changes:

Replace the following in the QC7 Phase I report package:

- a. Escalated Cost and Time to Construct for Interconnection Facilities, Reliability Network Upgrades, Delivery Network Upgrades, and Distribution Upgrades (Attachment 2 to Project Appendix A report dated December 17, 2014) to reflect the change(s) mentioned above.

The remainder of the WDT1206 Appendix A report dated December 17, 2014 is unchanged.
