Interconnection Study Document History

No.	Date	Document Title	Description of Document
2	01/21/2015	First Addendum to Queue Cluster 7 Phase I Appendix A – WDT1171	Addendum to reflect the appropriate dollar amount in Appendix E for the split of the [REDACTED] [REDACTED]
1	12/17/2014	Queue Cluster 7 Phase I Appendix A – WDT1171	Final Queue Cluster 7 Phase I Appendix A

██████████ the Interconnection Customer (IC), received a Cluster 7 Phase I study report dated December 17, 2014 for its Interconnection Request (IR) to Southern California Edison Company's (SCE) for their proposed ██████████ (Project) interconnecting to the ██████████ located in Los Angeles County, California, queue position WDT1171.

Subsequent to the release of the QC7 Phase I report package for the Project dated December 17, 2014, it was observed that in the QC7 Phase I Area Report Appendix E Document, which summarizes the Cost and Construction Duration Estimates for Upgrades in Area of the QC7 Phase I cluster, the dollar value illustrated for the split of the ██████████ in the QC7 Phase I report package dated 12/17/14 should reflect a total costs of approximately \$17,011,000 (2014 Dollars which includes one-time costs, but leaves the ITCC value out) instead of \$5,917,000 (2014 Dollars).

The document(s) below from the QC7 Phase I report package dated December 17, 2014 have been updated accordingly, and are attached as part of this QC7 Phase I Addendum report package. The corresponding changes replace and supersede those same sections in the Project's QC7 Phase I Appendix A report for WDT1171.

1. The QC7 Phase I Area Report Appendix E Document included in the QC7 Phase I report package dated 12/17/14 for WDT1171.

Summary of changes:

Replace the following in the QC7 Phase I report package:

- a. The QC7 Phase I Area Report Appendix E document included in the QC7 Phase I report package dated 12/17/14 for WDT1171 to reflect the change(s) mentioned above.

The remainder of the WDT1171 Appendix A report dated December 17, 2014 is unchanged.
