Executive Summary

██████████ an Interconnection Customer (IC), received a Queue Cluster 8 Phase I (QC8 Phase I) study report dated January 15, 2016 for its Interconnection Request (IR) to Southern California Edison (SCE) for their proposed ██████████ ██████████ queue position WDT1309.

During the Phase I study results meeting of the Project on February 19, 2016, subsequent to the release of the QC8 Phase I report package for the Project dated January 15, 2016 it was determined that the following item(s) in the QC8 Phase I report package for the Project required an update to reflect the appropriate duration and estimated costs associated with the Interconnection Facilities allocated to the Project.

1. Escalated Cost and Time to Construct for Interconnection Facilities, Reliability Network Upgrades, Delivery Network Upgrades, and Distribution Upgrades (Attachment 2 to Project Appendix A report dated January 15, 2016)

These item(s) have been updated accordingly, and are attached as part of this QC8 Phase I Addendum report package. The corresponding changes replace and supersede those same sections in the Project's QC8 Phase I Appendix A report dated January 15, 2016, and the remainder of the Phase I study report is unaffected by this addendum report.

In addition, subsequent to the distribution of the report, to comply with GIP obligation to IC's written comments on interconnection studies as modified by FERC Order 792, SCE is publishing any written comments submitted by the IC:

- Within ten (10) Business Days of receipt of the QC8 Phase I report, but in no event less than three (3) Business Days before the Results Meeting conducted to discuss the report; and/or
- Additional comments on the final QC8 Phase I Interconnection Study report up to (3) Business Days following the Results Meeting

This addendum report discloses below the written comments provided by the IC to SCE in accordance with the timelines stated in GIP for QC8 Phase I study report dated January 15, 2016.
