the Interconnection Customer (IC), received a Cluster 9 Phase II Interconnection Study report dated November 22, 2017 for its Interconnection Request (IR) to Southern California Edison (SCE) of their [Project], queue position WDT1395.

Subsequent to the release of the QC9 PII Study report package dated November 22, 2017, it was determined that the classification of the subtransmission facilities and licensing costs of the Project needed correction.

This Addendum #2 to the Appendix A report rectifies:

1. Attachment 2\textsuperscript{1} to re-classify the subtransmission estimated costs (\$540) from Distribution Upgrades classification to Interconnection Facilities.
2. Attachment 2 to re-classify the licensing estimated costs (\$675) from Interconnection Facilities to Distribution Upgrades.

The Attachment 2 document provided as part of this Addendum #2 to Appendix A report dated March 7, 2018 replace and supersede such document provided as part of the Queue Cluster 9 Phase II Appendix A report package dated November 22, 2017.

The Attachment 1\textsuperscript{2} and Appendix A report included in the Queue Cluster 9 Phase II Revised Appendix A report package dated November 22, 2017 remain unaffected by this report Addendum #2 to Appendix A report. This report also has no impact on the Addendum #1 to Appendix A report dated December 28, 2017.

\textsuperscript{1} Escalated Cost and Time to Construct for Interconnection Facilities, Reliability Network Upgrades, Delivery Network Upgrades, and Distribution Upgrades
\textsuperscript{2} Interconnection Facilities, Network Upgrades, and Distribution Upgrades
Attachment 2:
Escalated Cost and Time to Construct for Interconnection Facilities, Reliability Network Upgrades, Delivery Network Upgrades, and Distribution Upgrades
