

20. Metering and Power Factor Correction at the Point of Receipt or the Point of Delivery

20.1 (Not Used)

20.2 (Not Used)

20.3 (Not Used)

20.4 Power Factor

Unless otherwise agreed, the Distribution Customer is required to maintain a power factor within the same range as the Distribution Provider pursuant to Good Utility Practice. The power factor requirements shall be specified in the Service Agreement where applicable.
