Rate Schedule for Recovery of Costs Associated With Facilities Installed Pursuant to Interconnection Agreements

1. Applicability. This Rate Schedule is applicable to all customers who have requested interconnection to the Distribution System and are parties to an agreement with the Distribution Provider which provides the terms, conditions, and charges for such interconnection (“Interconnection Agreement”).

2. Description. The Interconnection Agreement shall set forth, among other things, the charges for ownership, operation, and maintenance costs and other on-going costs for any required facilities necessary to establish the interconnection.

2.1 For any facilities that are not under the operational control of the ISO, such charges shall be based on the capitalized cost of the facilities and the applicable rate most recently adopted by the California Public Utilities Commission (“CPUC”) for application to the Distribution Provider’s retail electric customers for added facilities set forth in Section H of Rule 2 of the Distribution Provider’s retail tariffs. The CPUC rates are reproduced in Sections 4.1 and 4.2 below.

2.2 For any facilities that are under the operational control of the ISO, such charges shall be based on the capitalized cost of the facilities and the applicable rate set forth in Section 4.3 below.

3. Definitions. Capitalized terms used in this Appendix shall have the meanings either set out below or in the Tariff, unless otherwise stated.

Customer-Financed Monthly Rate for ISO-Controlled Facilities: The rate accepted by the FERC for customer-financed facilities under the operational control of the ISO, which does not compensate the Distribution Provider for replacement of such facilities.

Customer-Financed Monthly Rate for Non-ISO-Controlled Facilities: The rate adopted by the CPUC for application to the Distribution Provider’s retail electric customers for customer-financed added facilities, which does not compensate the Distribution Provider for replacement of added facilities.
