Resolution _____

DECLARATION AND RATE ELECTION
FOR WATER AGENCIES AND WATER PUMPING ACCOUNTS

To Southern California Edison Company:

The Undersigned Customer/Applicant:

1. Understands that Schedule TOU-8 and any optional schedules thereto are not applicable to accounts with demands above 500 kW whereas such account is a: (1) individual water agency account where 70 percent or more of the water pumped is used for agricultural purposes or (2) water pumping account¹ where 70 percent or more of the water pumped is used for agricultural purposes. Such accounts must take service on an applicable agricultural rate; (T)
2. Has been shown the applicable agricultural rate schedule;
3. Understands that water pumped “for agricultural purposes” includes water pumped for irrigation of agricultural or horticultural products or for the provision of water for poultry and livestock;
4. Declares that the following is true and correct for the service accounts listed below:
 - The monthly maximum demand for the service account was above 500 kW at least three times during the preceding 12 months; and either
 - The account is a water agency, where 70 percent or more of the water pumped is for agricultural purposes; or (T)
 - The account is a water pumping account, where 70 percent or more of the water pumped is for agricultural purposes. (T)

Account Number	Agricultural Rate Selected

Meter Service Request (MSR)	

5. Agrees to notify SCE within 30 days following any change to the declarations in #4 above, and understands that failure to do so may result in such account being rebilled by SCE in accordance with Rule 17; and.
6. Understands that the rate elected will commence the date service begins for a new customer and as of the next regularly scheduled billing period for an existing customer following the date of this Declaration.
7. I declare, under penalty of perjury under the laws of the State of California, that the foregoing is true and correct. (N)

¹ A “water pumping account” is not simply an account that registers electric usage resulting from water pumping. Rather, it is an account that predominantly pumps water.
