This form allows SCE's Residential and Small Commercial Customers to change their billing option and make a one-time Relevant Period change for accounts that are served pursuant to the provisions of SCE's Schedule NEM, Net Energy Metering, and its successor, Schedule NEM-ST, Net Energy Metering Successor Tariff. The amount you pay for electric service during each 12-month billing period will be the same regardless of which option you elect.

PLEASE FILL IN THE FORM AND SIGN.

SECTION 3: ONE-TIME RELEVANT PERIOD SELECTION (This form must be received at least 60 days prior to the requested start date of the new Relevant Period)
I also request for my billing selection to be effective as soon as possible. Please end my current Relevant Period (12-month billing period), perform the normal account reconciliation for that period, and start a new Relevant Period as specified below.
In doing so, I understand that this is my decision to make a one-time only Relevant Period change of my NEM account. SCE is not responsible for any negative impacts to my net surplus compensation that may result from this change. No additional Relevant Period Change will be permitted.

1 By default, Residential and Small Commercial NEM Customers are billed (i.e., required to pay) ANNUALLY for their energy charges. However, the provisions of Schedules NEM and NEM-ST provide that "Upon a Customer's request, SCE shall permit a Residential or Small Commercial Customer to pay all applicable energy charges monthly".

2 The monthly billing option may be preferred by Customers who do not expect their system's exported generation to regularly meet or exceed their monthly electric consumption, and/or who do not wish to receive a single large bill for the energy consumed over the course of an entire year. Customers will receive monthly bill statements showing both the energy and non- energy related billing components and corresponding charges, and will be required to pay any positive energy charges monthly.
